The George Washington University er Breeze II' Slated For

e ENCOURAGED BY THE satisfactory reaction to the University's summer school dance at the beginning of the last summer session, "Summer Breeze, Vol. II" will unfold this Friday night on Lisner Terrace for students and friends attending the second hot weather session.

As has been the custom in the past, the word "free" is playing its role as an attraction as well as the breezes which will waft behind the Lisner Library.

As Steve Balogh, who is directing arrangements for the festivities, has stated:

"the whole thing is free." This will also include free refreshments, Balogh added. Playing from 9 to 1 on the Terrace will be a University standby and favorite, Leon Brusiloff and his musicians. Acting as hosts for the occasion will be members of the Student Council, led by Warren Hull, SC president

Balogh stated that a repetition of the good attendance of the dance held in e is expected, with the weatherman cooperating. All students of the University, their guests, and all faculty members are invited to attend.

Boosters Winding Up Army Fall Program Plans

• WORKING fast and furious to "wind up loose ends" for their fall program, members of Colonial Boosters held a bi-

Colonial Boosters held a bimonthly meeting last night.
Continuing from the present on through registration week, the Boosters annual membership drive, and arrangements for the annual cavalcade to the University of Virginia-Colonial football game in Charlottesville on Sept. 22 are the group's main projects.

Greater Demand
Because of a greater demand for membership tickets, the Boosters' Board has gained permission to include approximately 300 more students than last year. There is, however, a limit as to the number at membership booklets that can

Other Offers

Also provided to membership tooklet holders are two voices in drawing at the Furman Game on intober 26; reduced fares on reserved busses or trains to all games ot played at home; and to adance information concerning footall games, pep railies, and cavalades.

Boths will be set up in the basement of Government and in the Student Union during registration for the convenience of students who wish to become mem-

Since the George WashingtonU. Va. game is played before school
actually begins, the cavalcade will
be publicized during registration.
The Boosters' publicity director will
notify new students of the final
plans by means of post cards. Hired
busses will be available at reduced
rates to all interested students. The
4.00 fare includes a round-trip
ticket from the Buff campus direct
to Scott Stadium in Charlottesville,
and then the return trip back to
the campus.

ets es. est

and then the return trip back to the campus.

To Kentucky
The Boosters will also sponsor a drive in which they will urge all Boosters to accompany the team to Kentucky November 17. Arrangements will be made for special train accommodations for students making the trip.

Also in the plans of the coming year is included a competition between fraternities before the Maryland game.

Research

DR. MEREDITH P. Crawford, ean of the College of Arts and Science and professor of psychology at Vanderbilt University, arrived at the University Wednesday and has assumed his new duties as director of the recently established Depart-ment of the Army Human Re-sources Research Office.

This office, administered by the Army through contract with George Washington, will be located on the third floor of Staughton Hall, 707 22nd St., N.W.

Dr. Crawford will direct a staff of 15 including three assistant di-rectors, in scientific research on training methods, motive and mo-rale problems, and psychological

Br. Cloyd II. Marvin, president of the University, stated yesterday that: "The University is pleased to cooperate with the Army again in an important research project. In these times, the study of human resources is especially challenging and important. As in World War II when we operated the Allegheny Laboratory (where the famed Bazooka rifle was developed) and other vitat projects, we are proud to have the opportunity to contribute in this significant way to the nation's defense effort. The University is now engaged in research or special training in cooperation with departments of the Air Forces and of the Navy, as well as with the Army, and we consider these to be highly responsible assignments."

signments."

In addition to this organization of scientists at George Washington, several field research units will be established at military installations to provide the necessary "on the ground" contacts.

pround" contacts.

Dr. Crawford received his doctorate in psychology from Columbia University in 1935. He has served on the faculty of Vanderbilt since 1940 except for military service during World War II as a research psychologist with the Army Air Corps.

• SECRETARY of the Air Force Thomas K. Finletter addressed 96

Air Force officers who had com-pleted the first Air Force Manage-ment Training Program at the Uni-versity, during a special convoca-tion at Lisner Auditorium on July 12.

Dean Kayser, University Marshal, announced the convocation and President Marvin presented the cer-tificates. Chaplain Silas Meckel, USAF, delivered the invocation and the benediction.

the benediction.

Mr. Finletter, in his address, gave this challenge to the program's graduates: "You officers who have been studying manpower management practices here have a great opportunity to take back to your bases the lessons you have learned.

Success Hailed As Cherry Tree Sales Grow

WITH SALES of the bright new 1951 Cherry Tree advancing at a rapid clip, plans for next year's yearbook are being formulated.

yearbook are being formulated.

This report came after two months of sales of the Cherry Tree for 1951 which was edited by Tim Evans. Although many students left for summer vacations before the green-covered books arrived, the sales through the summer months in the Student Union Annex have been encouraging enough to make the current staff predict that this year's book will be a financial success.

From all reactions that have been From all reactions that have been received thus far, those students who have picked up their copies of the Cherry Tree have been more than pleased with the handsome, full-size production created by Evans and his staff. Due to trouble with the publishers, the books were late in arriving. They are here now, however, and while sales have been satisfactory, there are plenty of yearbooks left for the \$4.00 price.

We must plant the germ of providing more fire power with fewer men. It is a principle which I, personally, hold to be one of the utmost seriousness. It is a principle which goes to the very core of the future of the Air Force."

This is the first group of a total of 400 Air Force Field Grade Officers who are being assigned to the University for six weeks training. This program, which has been arranged by the University's College of General Studies, includes training in principles and techniques of organization, and critical and objective analyses. The classes are being taught by faculty of the School of Government.

The second group began its classes on July 23 and numbers 150 men.

• RETURNING to the scene of his undergraduate days, Dr. Martin Alexander Mason has been named to head the School of Engineering. As the new Dean, he will take office September 1 and will succeed Dean Frederick M. Felker, who has become pro-fessor emeritus of engineering ad-

fessor emeritus of engineering ad-ministration in residence.

Since May, 1946, Dr. Mason has served as Chief of the Engineering and Research Branch and Chief Engineer of the Army's Beach Erosion Board. He is recognized as one of the top men in the country on beach erosion studies, and dur-ing World War II he and his staff supplied the Army with much ing World War II he and his staff supplied the Army with much valuable information for numerous Pacific landings. He was able to supply such preinvasion information about enemy beaches as the type of sand on the beach and the depth of surrounding waters.

Selected Beaches

Called upon in 1942 by the Office of the Chief of Engineers to determine possibilities for landings on the French Coast, Dean Mason selected the "Omaha" and "Utah" beaches upon which Americans landed in Normandy on D-Day, His reports on landing beaches were used in planning amphibious operations in all theaters of operation. The Washington Academy of Sciences recognized the importance of his erosion studies leading to successful Allied beach invasions during World War II by giving him the Engineering Sciences Award in

the Engineering Sciences Award in 1947.

Attended Tech

A native Washingtonian, Dean
Mason is a graduate of McKinley
High School and received the B. S.
degree in Engineering from George
Washington in 1931. He continued
graduate study at the National
Bureau of Standards, Johns Hopkins University and the University
of Grenoble, France, which he attended on a John R. Freeman
Scholarship. Dr. Mason won the degree of Doctor of Enginering, with
honors, at the University of Grenoble in October, 1938.

From April 1925 to July 1937, he
was employed at the National Bureau of Standards in research and
testing of paper, engineering instruments, and water measurement
devices.

Studied Abroad

Studied Abroad

Studied Abroad

While he was abroad in 1937
and 1938 he studied in hydraulic
laboratories in France, Italy, Switzerland, and Germany, specializing
on problems of river regluations,
water measurement, and hydraulic
structures.

Returning to the United States
in November 1938, he became engaged at the National Bureau of
Standards hydraulic laboratory in
developing and improving water
measurement methods, studying
water hammer and hydraulic model
testing.

Foundation. An initial distribu-tion of 10,000 copies of this brochure is being made in the many different fields of activity which are the concern of the Foundation's objectives, such as commerce, education, science, manufacturing, fi-nance, labor and the professions. Support, both financial and intel-lectural, and cooperation from these varied fields will insure the Foundation's success.

Honorary Members

Honorary Members

Serving as Honorary Members of the Foundation and as members of its Advisory Council are: Joseph W. Barker, President of the Research Corporation; Vannevar Bush, President of the Carnegle. Institute of Washington; Cyrus S. Ching, Director of Federal Mediation and Conciliation Service; John W. Davis, nationally known lawyer; Charles F. Kettering, member of the Board of Directors of General Motors Corp.; and Max McGraw, President of the McGraw Electric Company.

The Foundation is a non-profit enterprise set up within the University under the supervision of Dean Colclough, as a part of the research and educational facilities of the Law School. Typical research studies might deal with such problems as the relation of patents to the American standard of living, including comparisons with the standards under other

of living, including comparisons with the standards under other patent system; the relation of pat-ents to the investment of risk capi-tal; a study of corporate patent policies and profits; patents as af-fecting the rise or fall of employrecting the rise or fall of employ-ment; the relation of patents to the development and encouragement of small business; and patents and the evolution of modern farms and farming methods.

Gave Encourager

The American Patent Law Asso-ciation gave encouragement in the formation of the Patent Founda-tion and the purposes and objec-tives of the Foundation have been tives of the Foundation have been subsequently endorsed by the American Bar Association and its Section on Patent, Trademark and Copyright Law, and by a majority of the local patent law associations throughout the country.

University officials believe that this research and educations in

University officials believe that this research and educational undertaking has far-reaching potentialities of importance to the technological and industrial development and hence the well-being of the United States. They believe the Patent Foundation has the opportunity to make continuing contributions to a better understanding of the functioning of the patent, copyright, trademark and related systems of laws in the industrial and economic structure of bur free society.

Construction of James Monroe Hall is under the direction of Mr. Joseph Toomey.

Students Invited To Picnic

Tubular Lighting

Features of the interior will be tubular lighting which, it is re-ported, will "make night seem like day" in contrast to the islands of

light how used in most classrooms.

The entire width of the classrooms will be glass. In the lobby will hang a portrait of the building's namesake, President Monroe.

A strike in Indiana limestone classifies has delayed somewhat the

SUMMER SCHOOL (2) RECORD

Grid D-Day For Buff Sept. 1

• SATURDAY, September 1, looms as D-Day for the Colo-nial football staff, for that's the day that Coach Bo Rowland and his cohorts invade Frog Island to begin practice sessions for that rugged 1951 grid slate which opens with Georgia at Athens three weeks later, Saturday

The National Champions from The National Champions from Kentucky, Georgia, Maryland, Virginia, Wake Forest, South Carolina, V.P.I., Furman and Richmond are the nine big hurdles that the Colonial gridders must face before completing their season. If you don't think the opposition is rough, perhaps a glance at their nicknames will change your first impression . . . there are Wildcats, Buildogs, Hurricanes, Gamecocks and Spiders to mention only a few.

Strong Defense

Strong Defense

Defensively, the Colonials should be much atronger than last season. That complete set of "Sizzlin' Sophs," who made up or backed up Line Coach Bo Sherman's forward wall, is returning as well as such frosh standouts as Center Steve Korcheck, one of the most versatile boys to play football here in many years. Add him to the experience of End Dave Shiver, Tackles Tom Flyzik and Frank Continetti, Guards Bobby Gutt and Jerry Angel, and Linebackers George Semkew and Joe Kennelly and you have a rough obstacle for any opponent offensive line.

The offense, however, does not have such a bright aspect. With the exception of Guards Art Kojoyian and Bob Allwine, all of the regular offensive forwards have graduated and Sherman must rebuild from his supply of incoming sophs and freshmen. Among this group are Tackles Tom Bosmans, Billy James, Monte Montemarano, Dick Drake and Carl Bodolus; Center Korcheck and Ends Richie Gaskell and Mike Nolan.

Andy Back

Andy Back

Andy Back

Heading the list of backfield prospects for the fourth straight year is Handy Andy Davis, nationally ranking offensive and defensive great, who will seek to break the all-time collegists offensive record set by Charlie "Choo Choo" Justice of North Carolina. In four years of varsity ball for the Tarheels, Justice accumulated 4871 yards passing and running. Davis, with 3645 yards to his credit thus far, needs only 1226 to equal Charlie's record. Already the Colonial star rates with such all Americans as Frank Sinkwich of Georgia (4602 yds.), Glenn Davis of Army (3737, vds.), Tom Harmon of Michigan (3405 yds.), Bob Fenimore of Oklahoma (4627 yds.), Charlie Trippi of Georgia (3225 yds.), and Johnny Raush of Georgia (3515) yds.).

Returning with Davis will be

Johnny Raush of Georgia (3515) yds.).

Returning with Davis will be such other backfield stalwarts as Bobby Cilento, Bino Barreira, Joe Kennelly, Jack Baumgartner, Lou Ciarrocta and George Semkew, as well as soph prospects Ray Fox, Ken Belliveau and Fred Matani.

Revised Staff

Coach Rowland has a revised but highly respected staff to assist him with his work this fall. Sherman, one of the nation's better line coaches, will handle the forward wall, while Wilbur Moore, alltime great from Minnesota and the Redcaches, will handle the orward wall, while Wilbur Moore, alltime great from Minnesota and the Redskins, serves as backfield coach. The ends will be handled by one of the most experienced wingmen in the business, Ray Hanken, former Colonial and New York Giant star. Another fromer Colonial standout, Milke Monchlovich, will serve as trainer and assist with the centers.

Coach Sherman's 'Boys' . . .

• THESE SIX linemen of the 1951 Colonial grid squad will be counted upon heavily to help George Washington attack one of the most rugged schedules in its history. They are: (left to right) Ken Samuelson, Jan Wojtowicz, Bob Gutt, Line Coach Sherman, Bob Allwine, Tom Flyzik, and Frank Continenti.

Something To Relieve Heat of Summer Days:

Think of '51 Colonial Football Schedule

IF GEORGE WASHINGTON'S football squad is suffering from the summer heat, this fall they will think back upon a "cool" vacation when they run into the opposition which faces them on their 1951 schedule. Some of the "hottest" in football enemies are lined up for Coach Bo Rowland's eleven, starting with Georgia in September. The schedule is as follows:

*Sept.	22at	Georgia	*†Oct. 1	9 Y	Vake Forest
Sept.	29at	Virginia	*†Oct. 2	6F	urman (
†Oct.	6 at	Maryland	Nov. 3		outh Carolina
*†Oct.	12VF	1 at Alexandria	Nov. I	7a	t Kentucky
1	*†Nov. 30		Richmo	nd at Alexan	dria +
\	The second second second second	* Night	† Home	Game	

Butler Trains - Colonial Capers With Bears

. END CHARLIE BUTLER, one of the great pass-receivers who led the Colonials into the nation's number five team-passing slot at the end of last season, is another in the long line of George Washington standouts to enter professional foot-

The former Air Force tailgunner, who stands 6' and weighs in at 200 pounds, recently reported to the renowned Chicago Bears' training camp in Indiana.

camp in Indiana.

Butler follows in, the footsteps of such ex-Colonial stars as Tuffy Leemans, Ray Hanken and Duce Keahy of the New York Giants; Jay Turner, Carl Butkus, Tim Swett, Frank Seno, Scotty Gudmondson and John Konizewski of the Washington Redskins, Walt Fedora and Edsal Gustafson of the Brooklyn Dodgers, and Bob Nowaskey of the Bears and Baltimore Colts.

Keating Receives French Award

e DR. LOUIS Clark Keating, executive officer of the University Department of Romance Languages, has received the Palmes Academiques from the French Government.

This honor, which carries with it the title of "Officer de l'Acad-emie," is awarded annually to a small number of French univer-sity and secondary school teachers and to a select number of foreign-

Two of the Colonials' top three grid ends of last season have been signed to pro contracts . . . Charlie Butler by the mighty Chicago Bears and Bill Szanyt by the Pittsburg Steelers . . along with wingman Charlie Jones, these men caught enough passes to land the Colonials in the Nation's number five team-passing spot at the end of last year . . . Tennis Coach Bill Shreve can well be proud of his team, which had one of the best records in its history with 12 wins and 4 losses . . . Andy Davis needs but 1226 yards next fall to equal the all-time college offensive record held by Carolina's Choo-Choo Justice . . . Handy Andy has picked up 3645 aerial and ground yards thus far in his intercollegiate career . . Coach Bill Reinhart's shortstop protege, Bobby Cilento, made the all Southern Conference team for the second straight year . . . Tackle Jim Feula has been recalled to the service as a commissioned officer at a New Jersey civilian athletic officer at Fort Myer . . Loud and long praise due to ex-Colonial stars Tuffy Leemans and Joe Gallagher for execllent reunion recently held at Heurich's .

Sailors Announce Fall Schedule

GEORGE WASHINGTON'S Sajiing club has announced its fall
schedule as follows:
Oct. 6 Greater Washington championships: Cath. U., Georgetown U.,
Maryland U., Naval Academy, St.
John's U., George Washington U.
Oct. 13 Pentagonal (at Kings
Point) Point)

Oct. 20 Freshman Elims. (at Na-

Oct. 20 Freshman Elims. (at Naval Academy).

Nov. 2 Sextagonal: Maryland U.,
St. John's U. U. of Penn., Lehigh
U. U. of N. C., G.-W.
Dec 8 & 9 Potomac Frostbite
(Participants to be chosen on basis
of fall record).
G. W. can quality for:
Nov. 10 Freshman Champs (NYSMC) by placing 1st or 2nd in
Elims.

Elims.

Nov. 11 Schell Trophy (at MIT)
by placing 1st in Greater Wash.
Champs.

Nov. 17 & 18 Navy Fall Invite.
By placing 1st or 2nd in Greater
Wash. Champs.

Scholarships

(Continued from Page 1)
Mahan Roamer and the Byron Andrews Scholarship of \$150 has been awarded to Claudia Beechum Chapline.

Russell Receives

The Elma Lewis Harvey Scholarship of \$100 has been awarded to Nancy Nell Saunders; the Mary Lowell Stone Scholarship of \$100, to Dorothy Lee; and the John Withington Scholarship of \$100 to Betty Lucille Russell.

The Maria M. Carter Scholarship of \$50 has been awarded to Guy

The Maria M. Carter Scholarship of \$50 has been awarded to Guy Harold Robinson, Jr.; the Isaac Davis Scholarship of \$50, to Marilyn Jane Sandwick; and the Ellen Woodhull Scholarship of \$30 has been awarded to Dana Marie Haas.

The University has also announced that high school discussion scholars, selected from the high school students who participated in the University's High School Discussion program are from Falls Church, Roosevelt and Coolidge High Schools.

Buff Swim Star Gets Honors

• THE ONLY semblances of a swimming pool around George washington are the puddles, which form on H Street on, rainy days. The University's name has been in the spotlight recently, however, through the ventures of one of its students, Mary Freeman. Freeman

Freeman.

This 17-year-old sophomore has won no letters at the University, but her array of medals taken in National AAU swimming competition is enough to warrant the admiration of such Colonial luminaries as Andy Davis. Since the beginning of this year, for instance, Mary has copped four major title against the nation's best amateur competition.

Life's Cover Girl

Pretty enough to become Life Magazine's cover girl several weeks ago, Mary is still an articons worker at her sport and the results are more apparent every day. In the National Senior AAU outdoor swimming and diving champion-ships at Detroit last month, Mary and Barbara Hobelmann, another bright prospect from the District of Columbia, both were under heavy pressure as swimmers "to beat" in their respective events. Despite this pressure, the slim Miss Freeman added to her honoir by carrying away the 100-meter and 200-meter backstroke titles and

recent friumphs and came inder the stiffest competition which out-door meets are known to afford. Earlier in the year, at Houston, Mary bolstered her reputation in the indoor meet class. She won the 200-meter backstroke and the 300-meter individual medley. She was also high point winner in that meet.

Ambassador Pool

Ambassador Pool

This list of achievements progresses back only to the year 1942, when Mary first began her serious training in competitive swimming. Those who read Life's article or who have followed newspaper accounts of this important young Colonial, know of her swift development under the coaches of the Ambassador Swimming Club and of the Walter Reed Hospital pool where she does most of her work.

pool where she does most of her work.

As with any serious minded athlete and especially with swimmers, a rigorous training schedule keeps Mary at the pool many hours each day throughout the year. Despite the impression of monastic living which Life's story portrayed, Mary has had time enough at George Washington to carry a full schedule and to pledge Kappe Kappa Gamma and take part in that organization's social activities. Her time is limited however, and she never gets too far from a swimming pool.

It has been rumored that Mary's close friend, Barbara Hobelmann may enter the University this fall. If this is substantiated, then George Washington will still be without a pool, but will have the greatest one-two punch in contemporary amateur swimming in the United States.
